

Manitowoc

SM50
ICE MACHINE

The SM50 ice machine combines

design and performance

The compact design accommodates the most intimate settings while the performance meets professional standards.

Features and Benefits

Individual cubes with unique octagon shape.

Easily accessible control panel with the following functionality:

- Automatic ice making mode
- Patented cleaning and sanitizing
- Delay start option
- Filter replacement warning light

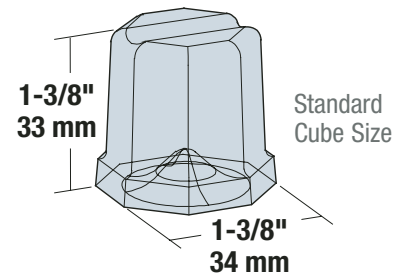

Manitowoc's SM50 is the first ice machine with a water filter system preinstalled.

The SM50 provides convenient accessibility to ice with a LED lighted bin and an easy to locate ice scoop.

3-year parts and labor warranty on entire machine.

Octagon Shape

SM50

Production Capacity	53 lbs. (24 kgs.) in 24 hours*
Storage Capacity	25 lbs. (11 kgs.)
Bin Melt Rate	The SM50 leads the industry** in ability to store ice in hot ambient conditions. The ice bin is fully insulated to mitigate melting, this is especially important when installing the equipment in a hot environment.
Water Filtration	6 month minimum expected life
Drain Pump	Optional drain pump easily integrates inside the machine during installation. Perfect for locations without access to a gravity drain.

Drain pump

* Production capacity at 70° ambient temperature and 50° incoming water.

** Industry leading melt rate based on testing of similar equipment in the Manitowoc test lab.

Control Panel Features

Automatic Ice Making Mode – ensures bin is always full

Delay Start Mode – with temporary shut off and auto restart control

Clean Mode – once cleaning cycle is completed, machine automatically resets back into ice production mode

Indicator Light – flashes when water filter requires replacement

Ice Accessibility

Bin Opening – oversized for easy access to ice

Scoop Mount – easy removal and convenient storage

Lighted Bin – illuminates stored ice for easy retrieval in low light conditions and highlights bin area for thorough cleaning

Door Opening

Ships with hinge on the right, easily changed to left during installation

Water Filtration System

Depth Filtration with Scale Inhibitor – ensures maximum water filtration

Valve-in Head – simply insert and twist to lock or unlock filter — no tools required

Auto-Bypass – water bypass is enabled when filter is removed

Water Filter – durable water filter is designed to last six months under normal operating conditions. Filter replacement light indicates when changeover is needed

Adjustable Height

Front and back levelers standard 0" to 1" (0-2.5 cm). Optional stainless steel legs available 4.25" to 6.00" (10.80-15.24 cm)

Manitowoc Ice offers commercial grade

compact ice machines

for business applications

Easy to Install

Designed to be installed into standard cabinet dimensions 15.00" (38.00 cm) or stand alone with stainless top and sides standard.

Front and back levelers allow for height adjustments.

Ships with hinge on the right, easily changed to left during installation.

Air flows in and out the front of the ice machine to accommodate both built-in and stand-alone installations.

Manitowoc Ice is the trusted leader when it comes to dependability and innovative solutions for commercial kitchens. Now Manitowoc offers that same dependability for corporate and business applications.

Warranty

3-year parts and labor warranty on entire machine.

Note: This product is intended exclusively for commercial application. No warranty is extended for personal, family, or household purposes.
