

THE NEW BG0260 GOURMET CUBE ICE MACHINE

Manitowoc's new BG0260 large gourmet ice machine featuring the unique BIG SHOT™ ice cube produces 2,000 cubes per day. These crystal clear, large gourmet cubes weigh a whopping 60 grams each and stand a proud 2" tall and 1-1/2" wide.

BIG SHOT cube = better chill, less dilution

For more information on how the Big Shot gourmet cube can enhance your signature drink scan the code to the left. Or visit: www.manitowocice.com

The Manitowoc Big Shot cube is the right cube for your signature drink. Whether you're pouring a craft whiskey on the rocks or serving up your award winning Bloody Mary, the Big Shot ice cube is the right fit. Its large surface area cools your drink effectively with a slower melt rate compared to smaller cubes, which means customers are able to enjoy their drink the way it was meant to taste without having to worry about the ice diluting the flavor.

Sangria

Mai Tai

Bloody Mary

Margarita
